Additional Notes:

Selecting your program of study, or major, is a very important decision. While you can always change your program at a later time, we do not want you to take courses that you may not need. We encourage you to do some research about the different programs and select one that will meet your needs. If you plan to transfer to a four year school, you should select an Associate of Arts (AA) or an Associate of Science (AS).

Associate of Applied Arts (AAA) and Associate of Applied Science (AAS) degrees are generally not designed to transfer. Certificates (Cert) and Career Studies Certificates (CSC) are short term credentials that may be part of a transferable program, but may not. For more information, please check our catalog at <http://catalog.tncc.edu/programs>. If planning to transfer, please refer to the catalog at the institution you plan to attend about what programs transfer.

If you have questions, please contact your Dual Enrollment Coordinator shown below.

Complete the form, sign/type your signature, save, and send to DualEnrollment@TNCC.edu
