Credit by Challenge Examination

Challenge examinations are available for selected courses offered at Virginia Peninsula Community College. A challenge examination provides the student with an opportunity to demonstrate mastery of course learning objectives based on previous learning experiences. Students must be enrolled in a curriculum at the College for which the course is required. A passing score on the examination will result in credit being awarded for the selected course.

Visual arts challenge exams are completed in the form of a portfolio review. A satisfactory review of the portfolio will result in credit being awarded for the selected course(s).

**NOTE:** Students may not complete a challenge examination for a course in which they have previously enrolled or audited within the Virginia Community College System.
